A large, ornate stone monument stands in the center of a public square. The monument features a central statue of a figure holding a torch, perched atop a tall, faceted pedestal. Below the pedestal are several sculpted figures, including one that appears to be a lion or a similar mythical creature. The base of the monument is surrounded by a low, decorative metal fence. In the background, a prominent yellow domed building with a cross on top is visible, along with other buildings and palm trees under a clear blue sky. People are seen walking and sitting on the steps leading up to the monument.
