PERU

A large, multi-decked Amazon cruise ship with a blue upper section and wooden lower section is navigating a wide river. The ship has a white conical roof on its upper deck and the word "AMAZON" visible on its side. In the foreground, a small wooden boat is moving across the water, leaving a wake. The water is calm, reflecting the sky and the surrounding lush green forest. The sky is filled with soft, white clouds, suggesting a bright but slightly overcast day.

Why Peru

An aerial photograph of the ancient Inca city of Machu Picchu, Peru. The ruins are built on a high mountain peak, featuring stone walls, terraces, and a central green courtyard. The scene is dramatically lit, with warm golden light from the sun on the left and deep blue shadows on the right, under a cloudy sky. The surrounding landscape consists of steep, forested mountains.

Our Archaeological Richness

Our Colorful Traditions & people

A photograph of a sloth hanging from a tree branch in a lush green forest. The sloth is the central focus, with its long limbs and thick, brown fur clearly visible. The background is filled with dense foliage and tree branches, creating a natural and serene environment. The text 'Our Astonishing wildlife' is overlaid on the right side of the image in a bold, orange font.

Air Connectivity

A photograph of a train traveling through a mountainous landscape. The train is on the left side of the frame, moving away from the viewer. The landscape is hilly and covered in green grass. A stream flows through the center of the image, crossing a small bridge. The sky is blue with scattered white clouds. The text "Trip Planner" is overlaid in the center of the image.

- Pre & post tours

A scenic view of a lake in Peru, likely Lake Titicaca. In the foreground, the dark, weathered wooden hull of a boat is visible. The water is calm, reflecting the sky. In the middle ground, several traditional huts with thatched roofs are situated on the shore, surrounded by lush green trees. The sky is filled with large, white, fluffy clouds, with patches of blue visible.

Metropolitan Touring Peru's Must See Destinations

The Peruvian Amazon

Covering almost 4 million square km. , the Amazon basin is one of the world's largest and nature densest areas, with more than 2,500 fish species, 1500 bird species and 50,000 species of plants, and more being discovered every day.

The Amazon River

The Amazon is the most abundant river in the world because of many reasons:

- The volume of water it carries to the sea: approximately 20% of all the fresh water discharged into the oceans.
- The area of land that drains into it
- Its length and width
- It is home to many other wonders of the natural world like the catfish, the Anaconda or the piranhas.

Pacaya Samiria Reserve

The biggest of all Peru's many national reserves, the Pacaya Samiria covers 21,000 square kilometers / 8,100 square miles. Just over 40,000 people currently call the Pacaya Samiria their home. Tourists regularly choose to visit the plentiful attractions of the reserve both on land and in the water.
